

Dis-united

12-20-19

Jack Wilkinson

The far-left faction of the Democrat party in the United States of America has successfully split this nation into warring factions of battling tribes. Our Declaration of Independence started our nation based on the following: “We hold these truths to be self-evident, that all men are created equal...” Here “man,” is the species, not the gender. This has been reduced, by “identity politics” of the left, to a continent of nit-picking idiots each trying to game the system for their individual benefit.

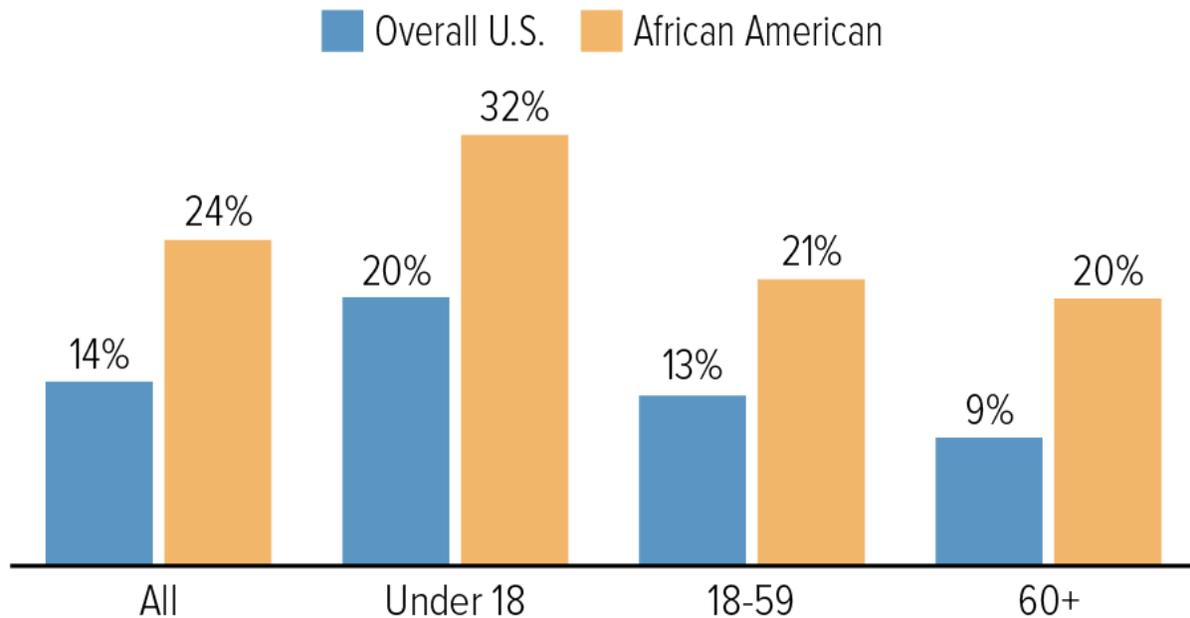

The Democrats have shed their white hoods and Jim Crow laws and adopted the tactics race baiting hatred by “identifying” whites as white supremacists and of promising, by pandering, a series of giveaways that are designed to do two things: 1, promise equality and 2, promise monetary inclusion by gift. Neither has worked. Except they have successfully “purchased,” a degree of loyalty.

Take the “Great Society” of LBJ. Black poverty was about 15% when the program started in the 1960’s. Here it is 2020 and the black poverty has changed to

what appears to be 24%.

While many will argue the validity of the numbers, it is plain that there has been little, if any, improvement in Black poverty reduction. That is until Donald J. Trump became president. The numbers of people employed will be reflected in the next year for 2019.

However, that fact that many more people are employed speaks to the fact. We are in the best economy in the last 50 to 60 years, depending

on just who you read at any one time. Certainly, there is no argument that more people are working now than in the last 50 years.

When one is able to earn the means to provide for one and one's family there is pride of accomplishment and self-esteem. Self-esteem is a very important part of the successful human condition and can only be earned, not bestowed by a government agency.

The Democrats have been promising much for the last 55 years that has yet to materialize. They do not want to solve the problem. If they did, they would have nothing to give away and the sham would be obvious. President Trump is delivering. The Democrats have not. Therefore, President Trump is very dangerous to the ultimate power the left needs to continue.

To counter the obvious failures, and lacking any credible solutions or candidates, the Democrats have resorted to: "Show me the man and I'll find you the crime." **Lavrentiy Beria**. With that as their guiding principal the Democrats have tried many approaches to bring down a duly elected President.

They can not let the people vote again because they do not have either a candidate or a philosophy that the majority of the voters will buy. So, they have resorted to a coup. They have shredded the idea of our republic and we are in dire danger of losing our republic.

We, as Republicans, will have to fight the Democrats and their main stream accomplices for the next 300 plus days in order to keep our “republic.”

I hope you will join us, the Marin County Republican Central Committee, in our efforts to save our republic. The fight will continue: *“Texas Rep. Al Green advocated that Democrats continue to pursue impeachment several times if the Senate does not vote to convict President Trump.”* Those words and the attitude behind them should frighten any and all freedom loving citizens of either party.

We meet the last Thursday of each month. Our next meeting will be January 30, 2020 at the community room at Jason’s restaurant, 300 Drakes Landing Rd, Larkspur.

We must remain The United States of America.
